Executive Contributor

Yasushi Kojima

Global Quality Officer

Fujitsu

www.fujitsu.com

- 1979 Master degree in Mechanical Engineering
 - 1979 Joined Fujitsu Transmission Group
 - I have extensive physical design experience, especially in thermal and system control study.
 - I designed marine transmission undersea unit and outside cabinet transmission systems for NTT in Japan domestic market and for RBOCs in USA.
 - 1999 to 2005: Assignee at Fujitsu Network Communications, Inc. in Richardson, TX
 - I was responsible for Network Servicing to make outside cabinet systems and component quality and selection
 - Joined GR-78 revision Workgroup and led Fujitsu on the committee
 - Currently on QuEST Forum Board. I have supported Fujii san who is Chair of Japan Hub. We are working to penetrate Japan telecom market with TL 9000.
